AgileBA training courses introduce participants to the fundamentals of Agile ways of working, explore the details of the Agile framework, and teach participants how to apply it effectively to their day-to-day work.

Why AgileBA Certification?

AgileBA training courses enable Business Analysis professionals to develop their understanding and proficiency in adopting and applying the Agile Business Consortium's AgileBA guidance in their organization.

Business Analysts play a crucial role in projects, through analysis of the organization's needs and the alignment of business projects to those needs. There is a growing body of evidence that an Agile approach is an effective way of working in projects.

Introducing an Agile approach has a significant impact on the role of the Business Analyst, not only in terms of their existing skills, but also their way of working. Whilst traditional skills are still valuable, new skills and ways of working need to be adopted to realize fully the benefits of new ways of working and appreciate the different relationships with co-workers and stakeholders that happen as a result.

The Agile Business Analyst Handbook

Based on the Agile Business Consortium's established Agile Project Framework, the Agile Business Analyst Handbook provides useful, practical, and comprehensive guidance on the role of the Business Analyst working in an Agile way.

As well as offering additional depth and guidance for the BA role, it goes beyond individual projects, providing context for the BA role as it relates to organizational mission and strategy. It is the perfect complement to your AgileBA studies, and a useful guide for day-to-day work.

Some of the Benefits of AgileBA Certification

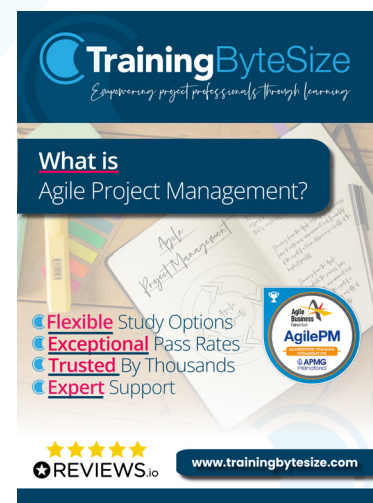

Individual:

- ✔ Gain a thorough understanding of the skills needed to successfully gather, analyze, manage & champion Agile project requirements.
- ✔ Enhance your CV and improve current and future career prospects with a globally recognized certification.
- ✔ Learn how to adopt Agile ways of working that are applicable to any industry, anywhere.

Organizational:

- ✔ Adopt a standardized approach for Business Analysts across the organization / enterprise, promoting a shared understanding, consistency & terminology.
- ✔ A complete, 'off-the-shelf' framework; no need to develop a unique framework (often at significant cost).
- ✔ A high-quality solution for professional development.

Want to know more about the basics of Agile? Click to download our FREE guide to Agile Project Management

With a clear, concise and detailed perspective on Agile Project Management productivity, the Agile Project Management Foundation certification is useful to all candidates and competency levels ranging from beginners to highly experienced senior staff.

What does the AgilePM Foundation Certification Cover?

The AgileBA Foundation Certification provides a solid grounding in the philosophy and principles of Agile, laying the foundations for consolidating learning, building understanding, and moving on to the AgileBA Practitioner Certification.

What Topics will I be studying?

The AgileBA Foundation Certification covers the 13 areas of the AgileBA Handbook in 12 modules:

- ✓ Introduction and The Role of a Business Analyst in an Agile World
- ✓ Agile Fundamentals and the Agile BA
- ✓ The Agile Business Case
- ✓ Stakeholders in an Agile Project
- ✓ Requirements and User Stories
- ✓ Prioritisation
- ✓ Workshops
- ✓ Modelling
- ✓ Timeboxing and Iterative Development
- ✓ Requirements Planning and Estimating Throughout the Lifecycle
- ✓ The Requirements Lifecycle in an Agile Project
- ✓ Making the Transition to Agile Business Analysis

Who is the AgileBA Certification for?

AgileBA guidance, training, and certification are designed to benefit a wide range of roles operating in an agile environment, including: Business Analysts, Change Analysts, Project Managers, Scrum Product Owners/Managers, Systems Analysts, and Agile Developers.

Building on the learning established in the AgileBA Foundation Certification, the Practitioner Certification provides a thorough grounding in the DSDM Agile Project Framework and teaches participants how to tailor the Framework and apply it to given scenarios.

Learning Outcomes

Successful Practitioner candidates will have the skills and knowledge to effectively apply Agile Business Analysis guidance to businesses and projects:

- ✓ Apply the underpinning philosophy and principles of DSDM in a project situation
- ✓ Appropriately configure the processes of an Agile project to a given scenario
- ✓ Produce and evaluate the content of BA-produced Agile products produced during an Agile project in a given scenario
- ✓ Apply the following Agile practices in a project situation: Facilitated Workshops; MoSCoW prioritisation; Iterative Development; Modelling; Timeboxing
- ✓ Identify the Agile practices to be used for a given situation within a scenario
- ✓ Understand the roles and responsibilities within an Agile project and the different levels of empowerment with respect to requirements and the business case
- ✓ Understand the mechanisms for facilitation and support within an Agile Project
- ✓ Understand in outline how to test, estimate and evaluate benefits delivery in an Agile project
- ✓ Describe the Agile approach to managing and prioritising requirements and identify action to rectify problems with requirements within an Agile project from a given scenario

Who is the AgileBA Practitioner Certification for?

The Practitioner course is intended for those who expect to have a management or leadership role in Agile projects, and this course is specifically built to support those using the DSDM Project Management framework in a business environment.

Experienced knowledgeable trainer took us through a well structured, well-paced programme of training.

Our learning was reviewed and re-affirmed at regular intervals, we couldn't have asked for more. Wholeheartedly recommend this business.

Flexible Study Options

Study online

- Study at your own pace on our dedicated Learning Platform
- Access the course and exam anywhere, anytime
- Engaging and expert content

You can study our course online at your own pace from anywhere in the world via our dedicated Learning Platform.

Designed by skilled animators and the most knowledgeable script writers, our online courses are incredibly engaging and use a mix of audio, film, animation, pictures and diagrams; this ensures they are suitable for all types of learners.

Quality online learning is at the heart of what we do, so when you study a Training ByteSize course you can be assured of a tried and tested quality product.

Study in a virtual classroom

- Teaching in the comfort of your home or office
- Ask questions to our trainers throughout the training using a webcam or headset
- Expert trainers
- Access training and take your exam anytime, anywhere

Our Virtual Course platform delivers accredited and certified training, led by leading subject matter experts, direct to your home, mobile, computer or office without the hassle of travelling or staying away. It is so easy to fit in an online class into your busy schedule; simply log in from home, the office, or even while you are travelling.

Students can ask questions using a headset, webcam, or a chat window, and have their questions answered, just like in a traditional classroom. Questions can be lined up and answered at intervals without interrupting the teacher's flow of thought. There is no difference in the level of interaction – in fact, distractions are significantly reduced because of this way of teaching.

If you have a group to train, we have a structured programme in place to ensure everyone gets the most out of the course. We offer a managed service where we can provide regular reports on learners' progress and share quiz results to ensure only those that are ready are put forward for the exam.

“We have been working with Training ByteSize for a few years now. From day one the service that they have given us and me personally is second-to-none.

They have a very professional attitude and are extremely adaptable to any of your own business requirements. All their trainers are very knowledgeable, very approachable and go out their way to explain everything.

All in all a fantastic service from a family-run business.

Study onsite

- Bespoke training option
- Cost effective learning for groups
- Save time and money on travel expenses - we come to you
- Access to some of the best trainers in the industry
- Pre-course learning materials
- Telephone and email support

If you are looking to train a team of people, you will find that our onsite training is a viable and cost effective option for you. You will also find you save money through the omission of travel, accommodation, and dinner expenses.

If you have a training room onsite you are more than welcome to take advantage of that. Or if you prefer, we could organise the project management training at a local venue, giving delegates a fresh learning environment.

Our trainers have a minimum of 10 years training experience, and with extensive experience in running and managing live projects, they have the real-life experience to bring the training to life and ensure that learners gain applicable knowledge.

Contact our expert team of learning advisors for a tailored quote and to find out more.

Fully Accredited Training, Globally Recognised

The AgileBA certification has been developed with experts from the Agile Business Consortium to ensure that delegates develop the knowledge and practical skills required to be successful in the ways of agile working.

The Agile Business Consortium's framework has been established for over 20 years and is always being refreshed and updated, so for those looking to get a solid foundation or specialise their training, the AgileBA framework offers a challenging, engaging, and relevant route to certification.

“ Training ByteSize was incredibly easy to use and incorporates all of the material you require to pass the exam.

An extensive and thorough training experience which involves and engages the trainee at every stage.

About Us

At Training ByteSize, we are experts in delivering accredited project, programme and IT service management training through a range of study styles. With **over 30 years' experience** in the industry, your success is key to our success.

We understand how people learn, we know how to train people to pass their exams, and we employ the best trainers and specialise in small class sizes to help you get the best from your investment.

We are very proud to boast an almost 100% pass rate in our exams and we are delighted with our five star reviews from individual learners to international corporate clients alike. So as a business that is looking to enhance change management skills and knowledge of staff at all levels across the company, and ensure everyone passes their exam first time, we believe **Training ByteSize is a name you can trust.**

We thrive on providing a reliable service to customers and we are proud to maintain an exceptional renewal rate with our corporate clients. Perhaps one of the biggest reasons for this success is our bespoke approach; we provide the training in the exact way you want it, whether that is on-site, online, virtual, classroom-based or a combination of these. As a family-run business we are small enough to care, but big enough to support clients from start to finish in the way they would like to learn.

All our trainers are experienced project and change managers before becoming accredited trainers. They each bring a wealth of experience to the classroom with a minimum of 15 years practical experience and 10 years training experience.

Wherever in the world you are, we are here to help. We can carry out a comprehensive analysis of your business to accurately identify gaps in skills and knowledge, and tailor packages to meet your exact requirements. Please speak to our friendly team of experts today to find out how we can help.
