# Foundation and Practitioner

**Managing Successful Programmes (MSP®) is the world's leading qualification for programme management.** With change a pressing reality for all organisations, successful programme management has never been more vital to success.

The MSP certification comprises of a set of principles and procedures to use when managing a programme, helping all organisations – public sector and private, large and small – achieve successful outcomes from their programme management.

Programme management differs from project management; helps organisations align their projects and programmes to corporate objectives. So for a project manager managing multiple projects, certifying in MSP will help them operate at a more strategic level.

A ByteSize introduction to **MSP®**
